

# Astrological Birth Chart, Character and Destiny Reading for Princess Diana

## Introduction

Astrology is as old as measured time. Although there are many different approaches to astrology, all astrologers appear united in the idea that there is a connection between the heavens and the Earth -- they share one common space. For centuries there has been a misunderstanding concerning the nature of astrology to the effect that the heavens somehow "influence" events here on Earth. This theory of celestial influence has penetrated into the modern world until today it is the main concept or idea of astrology supported by the public -- the lay astrological audience.

Professional astrologers do not hold with theories of celestial influence. Instead, the modern astrologer conceives of the heavens and Earth as united, interpenetrating, and sharing a common space and time. The great cosmic or celestial events happening around and beyond the Earth (eclipses, line-ups, and so on) are not seen as CAUSING events to occur on Earth, but as great signatures of events ALSO happening here on Earth. In other words, there is no "cause" in the heavens followed by an "effect" here on Earth. Instead, both planetary and earthly events happen simultaneously and are mutually reflective. Neither is the cause of the other; both are the product of the moment, one acted out in the heavens above, the other here on the Earth below.

While astrologers don't feel that heavenly events are the cause of events here on Earth, they do feel that specific heavenly events are enacted here on the Earth too -- at the same moment. In other words, there is only one grand "play." The great drama enacted in the sky is also acted out (in exact detail) here on Earth in the same instant. Another way to say this is that the Earth is part of the cosmos and shares in that cosmic moment. Scientists have been discovering (for example) that sunspots, solar flares, and solar activity have a very definite (and almost immediate) effect here on Earth. Astrologers tend to feel that all major cosmic events such as eclipses are interactive; they represent an activity also taking place within us and our consciousness.

In summary, astrology is a study of heavenly cycles and cosmic events as they are reflected in our earthly environment and vice-versa -- a vast cosmic clock. Astrologers find the cosmic patterns revealed in the rhythmic motions of the planets a great help in shedding light on the seeming helter-skelter of everyday life. Astrologers may have their heads in the heavens, but only to better guide their feet here on Earth.

We hope you enjoy your Astrological Reading profile. It has been calculated using sophisticated astronomical formulae to ensure high accuracy. On the next page you will find a list of the zodiac positions of your natal planets along with the house cusps for your birth moment.

**Your Rising Sign**

First let's take a quick look at your ascendant, or rising sign. Astrologers want to know what zodiac sign is rising at birth, since this gives a picture of the way you appear or come across to others.

You are careful and precise and come across as a caring and responsible person. Your attention to detail and analytical skills (and probably mental, verbal) is obvious to all meeting you. Your appearance is always refined and neat.

# Planet Aspects

## The Lights: The Sun and Moon

At the time of our birth, the planets (through their configurations and relationships) tell us something about how things were when we were born. Each planet points to special qualities within us. Yet, of all the planets, the two most important planets to astrologers are the "lights," the Sun and the Moon. From where we stand here on Earth, the great shining Sun by day and the reflecting Moon at night are our constant companions. They have much to tell us as to where we have been and where we are headed.

## The Sun: Your Self and Future

From the Sun comes light, that which draws us into life. The Sun represents all the changes we have not yet taken, that part of us that we have not yet experienced but are headed toward. The Sun represents our identity, or self, in that it is toward these that we are moving and developing. Thus, it also represents that which we will become: older people, authorities -- those we look toward, or up to. Our essence, or future. Teachers, gurus, and older (more experienced) people are represented by the Sun. The Sun is "hot stuff," those further up the road of life experience.

You are a very sensitive person who can depend on feelings and intuition to get around in life. Possessing good common sense, you are always very practical and down-to-earth -- mothering and protective to all. Security is very important. You also love cooking, growing things, and music.

*Sun in Cancer*

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury*

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable things. This is because you understand what is behind and connecting things. Much of your

own self-image is wrapped up with your ability to work with images -- dreams and the imagination. You would make a good teacher in areas of music, philosophy, and all that is mystical.

*Sun Trine Neptune*

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

*Sun Sextile Pluto*

### **The Moon: The Support System**

Here is information about the kind of environment we create around us, our support system. It is not only the surroundings that we set up today, but the Moon also represents our past, the particular history and social background out of which we grew. Aside from our social background, the Moon governs all of the old habits that we have grown beyond. We tend to look down on, or back on, our Moon. It represents those experiences out of which we have come, all those younger souls who are unconscious, or "sub" conscious to our own level. This is why it is said that the Moon is a mystery planet, for it is both our parent and our child: our parent in that out of it we were born, our child in that we can't but respond to others who are now living as we once did.

You are inspired, for humanity is your family and you are seldom bound by tradition or domestic ties. The big picture is what counts most with you, and large-scale movements and group work are the idea. You seldom find personalities interesting and are democratic in the real sense of the word. You are an altruist and love freedom.

*Moon in Aquarius*

You don't appreciate emotion and sentiment, in particular when in a group. Despite the above, you may feel that your feelings go unappreciated. Your disdain for demonstrations of affection may find you unable to appreciate or show love to someone who supports and provides for you. Your system of values tends to go against group norms, and may, at times, irritate others. Tradition, the past, and history in general have little to offer you.

*Moon Square Venus*

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

*Moon Opposition Uranus*

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

*Moon Trine Midheaven*

### The Inner Planets: Mercury and Venus

The planets Mercury and Venus have more to do with our internal and personal life than with life outside us. These inner planets are located between the orbit of the Earth and the Sun. We can look to qualities that are inside us. Venus indicates how we appreciate and measure our experience, how we value life. Mercury tells us something about how our mind works, how we think and communicate -- our intrinsic brightness.

#### Mercury: The Mind and Communication

Mercury is the light in our eyes, the ever-changing consciousness within us that moves from idea to idea. Thus Mercury has always represented thoughts, ideas, and the mental process in general. It governs not only ideas, but communications, too. Communications -- by phone, letter, spoken, or however -- are ruled by Mercury. Also thoughts, connections, phone wires, and everything that connects and conveys -- even conversations.

You sense things with the mind and understand that feelings are thoughts too. What does this or that thought mean? Where is it pointing? These are questions you ask. You use subjective rather than objective logic -- intuition and gut instinct. Poetry, music, and the arts interest you, as do psychology and the psyche.

*Mercury in Cancer*

You are very bright, and you may be very proud of your mind and all that it can do. You have a high degree of concentration that makes you an excellent student and able to excel in speaking, writing, and all types of communication skills.

*Sun Conjunction Mercury*

You have a great love of the written and spoken word, and ideas in all their flavours are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

*Mercury Sextile Mars*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Trine Neptune*

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analysing, in particular when it comes to psychological and sensitive areas

of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

*Mercury Sextile Pluto*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant*

### **Venus: Values and Discrimination**

Venus rules our values and sense of appreciation. When we appraise or appreciate something, whether that be another person or a new car, this is Venus -- the sense of love and compassion we may feel. By the same token, this planet rules enjoyment too. Whether it be self-appreciation or just plain old decadent self-enjoyment by having a good time, this is Venus. When we go shopping or are on a spending spree, it is Venus that allows us to appreciate and value all the good things of life.

Let's get physical! You love to touch and you can be very possessive. You love food and all the creature comforts. Money and what it buys are very important. You are a gentle lover and like a good home life. You are very loyal, loving, and down-to-earth. You may like gardening and gift-giving.

*Venus in Taurus*

Others may not support or feel right about your values. You may be unable to appreciate or show love to someone who supports and provides for you. You may have very little interest in your own past, or history in general. You don't value sentiment.

*Moon Square Venus*

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

*Venus Square Mars*

You could be an excellent teacher in areas requiring discipline and organization. You value order and place a high premium on hard work and effort. You like to get down to the bare bones, to what is essential. Whatever is most practical is best, and you appreciate things that are durable and long-lasting. You love truth, philosophy, law, and the like.

*Venus Trine Saturn*

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned ignorance to the contrary, you suffer regular infusions of change, which you find very

disturbing. New things threaten to overpower you.

*Venus Square Uranus*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Trine Ascendant*

### **The External Planets: Mars, Jupiter, Saturn**

The major planets outside the Earth's orbit (external to us) are Mars, Jupiter, and Saturn. These are the planets of the outer world -- life as we find it outside ourselves. Mars tells us something about the drive and energy we have, Jupiter shows us how to best channel that energy, and Saturn decrees what sort of material or territory we will be passing through. Again: Saturn tells us about the territory we will be going through, Jupiter the way or path through it, and Mars what kind of push or drive we can count on to keep going.

### **Mars: Drive and Emotions**

Mars is the planet of emotion and inner motivation or drive. When we search for the meaning of something, life or whatever, it is Mars that urges us on, keeps us searching. Mars also drives us against things, too and sends us into war and combat. The urgency of Mars, the search for meaning, is identical to the need for union, yoga, and marriage. Mars is the planet of union, and marriage is the most common form of yoga. When we have questions about the opposite sex, we are looking at the planet Mars.

You have an innate urge to save, salvage and conserve, and can make a silk purse from a sow's ear. You always want to help and to be of service -- be fully used. You hate waste and are very thorough and precise. For the most part, you are understanding and accepting, but this can turn into criticism and pettiness. You are careful and a perfectionist.

*Mars in Virgo*

Language, sound, "the spoken word" are in focus. The ability to give words meaning or to put ideas into words and give others a feeling for what things mean. Communicating with words. Also a sharp and clear mind. Quick, even clever. Entertaining.

*Mercury Sextile Mars*

You may not like displays of emotion and pushy people, or at least find them challenging and thought-provoking. Your basic drive and ambitions may tend to ignore or brush off your more caring and loving qualities. Emotional tension.

*Venus Square Mars*

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self,

and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

*Mars Conjunction Pluto*

### **Jupiter: Career and Life Path**

Jupiter is the planet of success and simple survival, the way we have to solve the problems that confront us. Thus Jupiter has to do with the way in which we can be successful, our vocation. The Hindu word for Jupiter is Guru. Jupiter is the guru and guide, the way we go through life, our life path or vocation. Jupiter is the method each of us has for dealing with the laws of life, our Saturn, or limitations. Jupiter is the light or path. Jupiter provides us with our sense of direction, the path we are on, the way we handle life. It affects how we approach life's problems. It has always been an indicator of how successful we may be, our vocation.

A true progressive, especially in community or group work, you are democratic to the point of being radical -- an idealist. You are cool and impersonal when it comes to being fair or just, with a great interest in new trends and world affairs. You are future-oriented. Application-minded.

*Jupiter in Aquarius*

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

*Jupiter Conjunction Saturn*

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favour of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

*Jupiter Square Neptune*

### **Saturn: Responsibilities**

The process of finding out who we are (self-discovery) starts when we come to grips with whatever problems life presents to us and begin to get a handle on them. In other words, if we have not dealt with Saturn, or time (that is, if we don't have some control of time), there is little opportunity for other questions. Saturn rules the laws and limitations of this material world we all live in. Saturn indicates where we are bound to learn, the narrowness that makes our way felt, the walls that make homes possible. Saturn holds us together as much as apart. Saturn is said to be the great teacher, the planet that keeps us from getting carried away in one direction or another. Although it always seeks to limit and determine any thought, word, or action, it also defines and clarifies. Saturn is called the prince of the material world.

Organizational problems. You have a tendency to avoid taking charge or responsibility and may need to accept a more disciplined and serious approach to life. Learn to enjoy hard work. Persevere. Learn how to manage. You may feel uncomfortable when in the public eye.

*Saturn in Capricorn*

An innate love of truth, essentialness, even adversity. A fierce sense of loyalty for loved ones. Protective and security-minded. You have a love affair with the practical and useful; you love to work and work with love. Form follows function.

*Venus Trine Saturn*

Your career moves are always solid, responsible, and based on sound principles. When you make a decision, it is one you can build on and take to the bank. Not frivolous, you don't get involved with superficial projects. You like solid investments.

*Jupiter Conjunction Saturn*

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Trine Ascendant*

### **The Outer Planets**

In the previous sections, we have dealt with planets that we can see with our naked eyes. In general, these planets refer to life as we know and live it and are the so-called historical or classic planets. Beyond these are three planets that are not visible in the sky and which have cycles longer than the average human life span. Since they are beyond Saturn or time, astrologers call them the trans-personal or transcendental planets -- the planets beyond the physical. One of the ways astrologers learn something about our life beyond time (eternal life) is through these three outer planets: Uranus, Neptune, and Pluto. Here we find information on how we discover ourselves (Uranus), how we understand and accept these discoveries (Neptune), and, in time, how we depend and identify with them (Pluto).

### **Uranus: Break-Thrus & Insights**

Our responsibilities can tend to weigh us down, and we each have our particular ways of getting around (or breaking through) the mass of obstructions that tends to congeal around us. The planet that has to do with how we get beyond the difficulties and problems life presents us is Uranus. Here is the way insights come to us, how we discover or come to know and understand ourselves. It has to do with finding new uses for old things, and it rules inventions and sudden insights into our life -- everything that is unusual, eccentric, and out of the ordinary. It is the reverse of the status quo and is always unconventional and heretical. Uranus is, in many ways, the opposite, or undoing of Saturn.

You have great insight into matters of personal freedom. You come up with brilliant ways to express, emote or act things out. New methods of lovemaking, raising kids, caring for animals are yours. You are outspoken, very dramatic, impressive, and even regal. You relax

with children, sports, acting, singing, and such. You really like yourself.

*Uranus in Leo*

Your independence and general unconventionality may sometimes be offensive to others. You like to go against the grain, break free, and relish the unusual and different. You may rebel against tradition, the past, history, and the like.

*Moon Opposition Uranus*

You may not be able to let yourself appreciate much that is not conventional for fear of going on some kind of a binge. A strong sense of the novel and unusual rears its head every so often and upsets your whole value system.

*Venus Square Uranus*

You tend to be creative and original in your work and career, managing to bring new ideas and spontaneity to bear.

*Uranus Sextile Midheaven*

### **Neptune: Ideals & Imagination**

Even the most hard-nosed of us have moments of real understanding, when things are seen as linked together and one piece. We stop getting the idea in little flashes and just get the whole thing. It dawns on us. We each have our own way of letting go, having communion, and (as the poet wrote) letting "the dewdrop slip into the shining sea." These moments and this state of mind are, in fact, the source for all our imagination. There are many ways of seeing through the separateness in the world to the unity behind it.

Unafraid of the "dark" side of life, you are interested in esoteric religion, everything mystical or occult, and so on. Sexuality and physical desires are encouraged and seen as spiritual. Money, power, and things of this world are O.K. too. The physical is ideal. Possessions.

*Neptune in Scorpio*

A born mother to any and all forms of life. Very compassionate and attentive (aware of) the needs of others. Spiritual ideas and concepts are a way of life here. There is deep appreciation, even love for, movies, big ideas, themes. Visionary director.

*Sun Trine Neptune*

Great psychological talent. Able to sense and feel in the more abstract mental areas and to bring far-out ideas down to earth. Always at the leading edge of social understanding. Great sense of compassion and a real understanding of others.

*Mercury Trine Neptune*

Your goals and ideals are often in contrast to the actual decisions you make, in particular those regarding career. Your tendency to head in directions that are less than ideal, that don't fit your own dreams and self-image, causes tension.

*Jupiter Square Neptune*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto*

### **Pluto: Inner Change and Growth**

Pluto is the planet of profound change, starting deep within us and moving toward the surface. It often touches upon the most sensitive psychological areas inside us. Once touched, we have no choice but to change and grow. The most sensitive of experiences, the times of greatest vulnerability, are times of complete identification with an experience, a person, or a thing. We know in these instants that we are looking at our self, what we are. The most personal of experiences is one of complete identification with a person, moment, or idea. Perhaps this is only possible for most of us when we look into our child's eyes, and then only infrequently. Love is not the experience here, but total identification. This is very sensitive stuff. To touch upon this material is to go through deep inner change and transformation -- inner alchemy. Identification and experiencing that life is our own creation and that, in fact, you are I and I am you. This experience breaks us down and humbles. When we touch upon this experience, we cannot but die to what we have been thinking and doing up to now. It reduces us to our most sensitive because -- in a flash -- we see or remember that it all is us, our life.

You tend to be radical when it comes to self-analysis, which means health care, food, physical well-being, and so on. Serving and caring for yourself and others are primary sources of inner growth and changes. You are sensitive to criticism.

*Pluto in Virgo*

Innate intensity and seriousness are visible to all. A sense of the eternal aspects of life makes authority and leadership positions natural and unavoidable. A gut sense of how to act in stress situations. Lots of charisma. Power.

*Sun Sextile Pluto*

Penetrating, probing mind that is good for research. Can see far beyond normal concepts in areas of religion and psychology. Always want to get to the bottom of things, get under or beyond the superficial. A sense of the eternal.

*Mercury Sextile Pluto*

Intense and passionate emotions are your trademark, and you have a sense of mission when it comes to pursuing psychological issues and anything that is esoteric, hidden, secret. You search things out and are at home with change and transformation.

*Mars Conjunction Pluto*

A searing vision that cuts through what passes for conventional religion. A vision of the endless process of life ever being born afresh. Great acceptance and faith in the natural process and next generation. Love of children and animals.

*Neptune Sextile Pluto*

## Challenges and Abilities

### Focus

These are areas of life where we show intense focus and activity. For better or worse, these qualities stand out and are obvious to all those who come to know us. They are very clear parts of our character.

You have a relentless drive to get at the heart of things, whatever is under the surface or behind the scenes. Your relentless pursuit of anything hidden or secret makes you a researcher or investigator bar none. Emotionally you are also hot stuff, rushing into areas and handling subject matter that others would never come near. Vulnerable issues, sensitive areas of the self, and psychology are the first places you head. This amounts to a passion with you. Those around you may find you just too intense to be around. It puts them through a great many changes.

*Mars Conjunction Pluto 04°35'*

You communicate with consummate skill, and it is stimulating just being with you. Your high degree of mental concentration makes you an excellent student, able to excel in speaking, writing, and all types of communication skills. Your ambitions go hand-in-hand with communication and using the mind, and the two should never be far apart.

*Sun Conjunction Mercury 05°60'*

You are very "bearish" when it comes to security and seldom make a move that does not strengthen your position. You pursue responsibilities the way others pursue pleasure, and you even invite obligations. Career moves are always solid, based on sound principles, and may be tied in with the law or authorities -- all that is solid and well-reasoned. You don't invest in anything that is not tried and tested. Truth, religion, and philosophy are subjects of great interest.

*Jupiter Conjunction Saturn 07°18'*

### Challenges

Life can be challenging, and things are not always easy. The major challenges in a natal chart are where we can expect increased activity and personal involvement -- ready or not. These critical areas of life can be difficult, and the resulting confusion and possible obscuration often makes it hard for us to see and act with normal clarity. Therefore, when it comes to the following factors you may wish to exercise caution and extra patience.

Your conservative values clash with whatever is unconventional and different. You don't value novelty and do your best to ignore changes. You appreciate tradition and regularity, and your value system is dead set against anything new or out of the ordinary. Despite your feigned

ignorance to the contrary, you suffer regular infusions of change, which you find very disturbing. New things threaten to overpower you.

*Venus Square Uranus 00°45'*

You have little use for tradition, history, and the past, in general. Your autonomy and nonconformist attitude tends to ignore the feelings of others. You seem to enjoy confrontation, going out of your way to challenge whatever is traditional and customary. Don't be surprised if those around you won't always give you the support you feel you deserve.

*Moon Opposition Uranus 03°03'*

Your tendency to compromise and settle for less than you dreamed can be a problem. Given the opportunity, you may choose the path of least resistance, willing to bypass some of the things you always wanted in favour of expediency. Career moves must be given special attention. Tension results when you ignore your own desires (the things you need and want) and take a course of action, job, career, or whatever that can never satisfy. Or worse, you may find yourself in a job that is compromising.

*Jupiter Square Neptune 03°31'*

You don't appreciate emotion and sentiment, in particular when in a group. Despite the above, you may feel that your feelings go unappreciated. Your disdain for demonstrations of affection may find you unable to appreciate or show love to someone who supports and provides for you. Your system of values tends to go against group norms, and may, at times, irritate others. Tradition, the past, and history in general have little to offer you.

*Moon Square Venus 03°48'*

Your mind is ever on career and family, and this may not make you the most communicative and social animal. You may prefer to avoid crowds and all large gatherings. You may not need relationships other than at home and at work.

*Mercury Square Ascendant 06°60'*

What you don't love is the parade of emotions -- directness from others. What you do love and appreciate may not be as clear to you as what you do not love. You are troubled by all that gets too pushy, physical, and gushy. About this you are clear. Sports, ordeals of bravery, and all that is too physical is objectionable. Given the world as it is and your predisposition, a certain amount of emotional tension is unavoidable.

*Venus Square Mars 07°23'*

### **Talents and Abilities**

Despite whatever problems we may have, there are areas of life where we have clear insight and real talent -- natural ability. When it comes to these matters, our judgment is sharp and we always manage to take charge. We have the knack. It may be as simple as the ability to work hard and accomplish things without something going wrong. An innate sense of the workings of these parts of life makes it easy for us to learn and accomplish things where they are concerned.

You have a natural ability to grasp spiritual and visionary matters and to put them to work. You can perform with the imagination and metaphysical thoughts like others work with durable

things. This is because you understand what is behind and connecting things. Much of your own self-image is wrapped up with your ability to work with images -- dreams and the imagination. You would make a good teacher in areas of music, philosophy, and all that is mystical.

*Sun Trine Neptune 00°43'*

You express yourself deliberately and don't waste your words. You have a natural sense of organization and come across as disciplined and careful, perhaps a little too sober.

*Saturn Trine Ascendant 01°28'*

You tend to be creative and original in your work and career, managing to bring new ideas and spontaneity to bear.

*Uranus Sextile Midheaven 01°52'*

You have a great love of the written and spoken word, and ideas in all their flavours are what you like best to work with. Your enthusiasm for mind, the intellect, and the world of ideas makes it easy for you to communicate these things to others. You would be a good teacher. You have no trouble putting your feelings into words, and what you say always carries a lot of content. You could make a fine entertainer and an excellent speaker.

*Mercury Sextile Mars 01°54'*

You love appearances and have a way of pleasing others and coming across as loving and kind.

*Venus Trine Ascendant 02°18'*

You work with real imagination and understanding in areas of the mind that are the most personal or private -- depth psychology. You are like a midwife of the spirit, assisting at the birth of each individual going through a spiritual or re-birth process. You accept the natural process of birth, spiritual and physical, and have dedicated yourself to helping it along. You would make a great teacher in these areas.

*Neptune Sextile Pluto 02°36'*

When it comes to mental work, you have a perfect gift for research and investigation. You enjoy examining and analysing, in particular when it comes to psychological and sensitive areas of the mind. Your ability to sift through the dross and come up with what is essential every time is exceptional. You like to discuss and communicate, again always at a psychological and very personal level. Others may find you just too intense.

*Mercury Sextile Pluto 02°41'*

You find it easy to work with sensitive material, touching upon the more vulnerable areas of the mind or self. You are able to handle these delicate matters without ever breaking stride, for emotional and tender areas of the human psyche don't phase you. You enjoy getting beneath the surface and have an innate savvy for handling touchy subjects. This is perfect for any research investigation or plain old detective work.

*Sun Sextile Pluto 03°19'*

You could be an excellent teacher in areas requiring discipline and organization. You value

order and place a high premium on hard work and effort. You like to get down to the bare bones, to what is essential. Whatever is most practical is best, and you appreciate things that are durable and long-lasting. You love truth, philosophy, law, and the like.

*Venus Trine Saturn 03°46'*

Your career always seems to get the support you need, and this is one area of life that runs smoothly. You seem to understand what the public wants, and mass marketing is a natural for you.

*Moon Trine Midheaven 04°55'*

You are expert at working with words that communicate mystical and mythological ideas. You are at home in these realms and can always manage to bring other-worldly ideas into the practical realms. You would make an excellent teacher of philosophy or religion, for you can't help but communicate these subjects and enchant all who come to know you. Your understanding of the unity behind appearances, along with the ability to put these thoughts into words, is a rare and valuable gift. You would make a good director, for you like working with mental images.

*Mercury Trine Neptune 05°17'*

## **Landscape: Major Life Periods**

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

### **Your Personal Background**

You may be a very social child -- an accomplished leader at the age of even seven or eight and a real socialite in the early teens. All of this is somewhat premature, so don't be surprised if you lose your interest in the external, social scene during your middle teens. You will discover a more subjective you and elect to take a more inward direction. Turning away from the social scene, you may spend many years pursuing your inner life. This more involuted and personal time may intensify when you are 21-22 years and last until you are around 30 years of age. At that time you will go through a remarkable change, sort of discovering yourself all at once. The more inward years of inner searching will pay off with new confidence and real direction. You will begin your real life's work after this time, and your middle years will be very strong and successful.

### Your Current Situation

Now for a close-up of recent years: while landscape was quite general, the dates given in this close-up should be much more precise. Life is composed of sections of time, each devoted to one kind of activity or another. We go along for a while in one direction until something changes within (or outside) us and we head off in a new course. Some of our earlier activities dry up and new ones spring up in their place. What follows is an analysis of the time period in which you find yourself now. Don't look here for a day-to-day account of life but rather to get a picture of this stretch of time, "these years."

**Feb 08, 2017 1st Pass D> (Age 55 7m)**

**Jun 05, 2017 2nd Pass R< (Age 55 11m)**

**Nov 06, 2017 3rd Pass D> (Age 56 4m)**

The dates above point to the end of a period of about seven years during which you may have been very inward and self-absorbed -- quiet, subjective years. Information that you have been examining and thinking about will now begin to take shape and prove useful to you. This next period is one of action and embarking on new projects. You will feel more and more confident and outgoing, a sense of confidence that grows stronger with each passing day. Things that may have been in suspended animation for many years will now precipitate and take on structure and shape. These next years are ones in which you should plan to work hard to bring out and give shape to the ideas you have pored over these last 6-7 years. You are beginning to really move forward now and can expect rewards to take an outward career, and social form within a few years. A growing self-confidence. In summary, from this time forward, expect a more confident, outgoing attitude, for you have brought to a close a time of inward examination and learning. A growing sense of direction and self-worth will find you reaching out and establishing yourself.

### The Elements, Modalities and Angularity

Elements, modalities, and house quadrants. These are all techniques used by astrologers to gain a general picture of how a person measures up. How do your planets and houses total up? Which do you have in abundance, and which do you lack, if any? Those with high totals show what we can or must do in life. These are qualities we have. However, most people are more interested by what they lack or want -- their lowest totals. They tend to study their "wants," imitate, and even pretend to have them. The old adage is: we become what we want (or lack), while we do what we can (or have to do). Here are your totals:

You're concerned with preserving the status quo and are stable and methodical in your ways of going on. You resist change and may have trouble getting started, but once on the move are indomitable. You mistrust that which is new or untried.

*Have Earth*

Your inner self-confidence may be lacking, and you could try to overcome this by defensive aggressiveness. You probably wish you had more of the self-assurance your fiery acquaintances have.

*Want Fire*

A solid supporter, always gravitating to the heart of things. You may have trouble getting moving, but once rolling, others better watch out. You have a stick-to-itiveness that always finds you in the thick of things, toughing it out.

*Have Fixed*

You may lack flexibility, managing a foot-in-the-mouth when you least need it. You could have trouble adapting to situations or to the demands of those around you. Perhaps it is not easy for you to communicate or smooth over things.

*Want Mutable*

Your feelings need to be stirred before you can throw yourself whole-heartedly into any venture. Love, ideals, and a strong sense of your own worth are vital to your well-being and ability to function.

*Have Succedent*

You may complain of never having any privacy or time to think -- your pattern seems to throw you much in contact with people and the outer world. Being an extrovert, you may have difficulty understanding reclusive types.

*Want Cadent*

## **Your Burn Rate**

We all change, but the question is: At what rate? Some of us tear through change after change, one phase following another, year after year, while others move at a more serene pace. Or, one area of our lives may be hectic and forever changing, while other areas are quite tranquil. Why do some people seem to live lifetimes within lifetimes? Here is an analysis of your particular rate of change or "burn rate," including the particular areas of your life (planets) where you can expect continued change and growth. Areas where there is a very low index of change (indicating clear and easy use of the qualities involved) will also be pointed out. If you have sometimes wondered about the areas of your life where the candles burn at both ends, here are the details.

You have a very high burn rate (index of change) and tend to run hot and fast. It is almost like having many lifetimes within this single one. Things are always fast and furious with you, and you seldom remain calm for long. Your thirst for experience and growth keeps you always on the move. You work through an enormous amount of change compared to an average person. In particular, the following qualities are areas where you have experienced and will continue to experience much change. These areas of life persist in presenting themselves to you, so you may already have become very experienced in them. On the other hand, they could be arenas in which you struggle but have not yet attained mastery.

A majority of planets in the PAST suggests that you are comfortable with established values. You know and understand more than you let on, and life changes seldom take you by surprise. You have a great deal of control over your actions.

### **Planets in High Focus**

You will go through a lot of change regarding personal values -- your ability to appreciate, measure, and appraise things. You may find yourself preoccupied with possessions and the way you feel about them. All matters of value, valuing, and ownership will be the source of continuous learning. Issues of compassion, love, and care are areas that will require learning.

*Venus*

You have a high rate of change when it comes to what you believe in -- your ideals and dreams. You adjust and change your ideals often and struggle not to get carried away with each new vision. The world of your imagination is a major focus of change.

*Neptune*

## **Patterns: Your Inner and Outer Self**

Here we are examining your basic attitude or approach to life, what is called by some the archetype or soul-type. If you know something about your particular soul-type, this can provide valuable information as to the general direction and purpose of your life. In particular, it is important to note the difference, if any, between our outer personality (the way we appear to others) and our real inner self; how are we, in fact, as people get to know us? Not all people are as they seem.

You are not what you appear to be. Your personality, the way the world sees you, appears more independent and outgoing than is the case when people get to know you. An extroverted manner screens a more inward and quiet-seeking self. In other words, you are much more sensitive and concerned about what others think than meets the eye. Although your outer

personality may look tough and self-centred, you are more sensitive to the needs and feelings of others than you let on. Whereas your appearance and personality may bring you unwanted attention, the real you prefers to stay out of the limelight. Appearances aside, let's take a look at the real or inner you.

*Geo: Square Helio: Trine*

### **Your Soul Type**

You are the eternal patron of just about anyone who will let you look after them -- the original mother hen. You need to feel useful and wanted and are never happy unless you are active and involved. Always the host, you find yourself (in most situations) caring for and taking care of others. In fact, you may tend to worry about others -- making a good impression -- too much. Not content to let others judge you on appearance alone, you would rather be judged by your actions, by what you have done or can do. You are most happy when you can do something for someone and aren't above keeping others in your debt. Your general sense of concern for everything makes you invaluable when anything needs doing and, if left unoccupied, you have been known to even worry for worry's sake. Given only a few facts, you are able to take in a situation and come up with a real picture of what is happening. Never happier than when fully engaged. You will tend to find yourself in responding to others. You can always put your ideas into words and describe or analyse situations for yourself and others. Chances are you will work in one of the many service occupations, taking care of and looking after people. You may feel empty or that there is not much to you, particularly in a group situation where you will not tend to be the centre of attention or a great entertainer. Your mind and caring attitude are what others find attractive in you.

You are born to love and care for others and may tend to worry overmuch. Your fear of being left out or not being fully used up in this life can be alleviated by much hard work, by jumping in with both feet and putting your thoughts into action.

*Trine Type*

### **The Key to your Inner Life**

Each person has one or more key qualities. Here we are not referring to our appearance or personality, but rather to our inner nature, how we are when someone really gets to know us.

Your most essential quality has to do with the very real love and compassion you radiate. Your sense of values and sheer appreciation for life are communicated to all who come to know you. Beyond whatever external considerations may be present, you exude a contagious thankfulness and fondness for things and people. These inner, loving qualities are experienced as a very real good.

*Venus*

You are driven and passionate in your pursuit of change and inner growth. You possess, at the core, an intensity that burns through superficialities, searching for opportunities to face the truth and render the evident to view. This ceaseless analytical activity, while central to your nature, may be the source of discomfort to others.

*Pluto*

### **The Key to your Personality**

The key to understanding your personality and the circumstances in which you find yourself can be found in the environment or support system that surrounds you. You are very much the creature of habit and habitat, and the encircling network of friends, relationships, and what-not are crucial to your success or lack thereof. You are nourished in great measure by the atmosphere and conditions you are able to set up.

*Moon*

Your sense of discrimination, the ability to discern gradations and differences, is a crucial element in your personality. You relish and cherish things so. Your value system, the way you enjoy and appreciate everything, is a central factor in your make-up.

*Venus*

### **The Personal Hot Spot**

Emotions and drive take the heat as far as being a prime focus for action in your personal sphere.

*Mars*

## **Interface: Innermost qualities**

This feature is based on an intricate analysis of the position of a particular planet in relation to the orbital planes of the other planets. The resulting series of crossings, or nodes, tells us something about the nature of our innermost inclinations (Inc) and disinclinations (Dis). These indicators are not to be considered at the level of our personality, but rather are deep-seated parts of our innermost character -- our internal biases. These pros and cons are not apt to change in the course of our lifetime.

You don't like making career decisions, and you can get downright confused when it comes to making the right choice. You may not appreciate advice, and this makes the problem somewhat more complex. It could be important for you to get the counsel of a trusted friend, someone who can advise you as to the right choices. Whether you happen to like them or not, once you have determined the right route, you should take it.

*Venus Dis Jupiter*

You are driven when it comes to fulfilling your ambitions and carving out a career. There is no lack of energy or drive here, and nothing can stand in your way. Everything is poured into making the right moves, the correct decisions. You are outgoing, enthusiastic, and always diplomatic -- everybody's favourite. You have a natural instinct for making the correct move at

the right time. Politics or some public career seem inevitable.

*Mars Inc Jupiter*

A desire for unity and atonement. You have an urge to put out to sea and to somehow get past what separates and into that which unites or ties things together. Your drive to make dreams real keeps you working for your vision. The ideal should be made real. You put your whole heart into making your dreams and ideals a reality.

*Mars Inc Neptune*

You have much trouble organizing your thoughts, and your lack of discipline is a constant hassle to both you and others. Study and mental self-control are not your cup of tea. You can say things that are simply impractical and have trouble limiting yourself to ideas that are down-to-earth, pragmatic. Some of your ideas are just plain irresponsible. Mental hassles can be a constant headache for you.

*Saturn Dis Mercury*

You have trouble accepting responsibilities. You don't like them. You would rather enjoy yourself at the expense of any obligations, letting them accumulate as they will. This struggle with authority and simple duty makes for great tension and diminished good times. It is hard to have fun when you are ignoring your responsibilities. What we have here is a stalemate.

*Saturn Dis Venus*

You place a high value on your dreams and ideals and don't consider them otherworldly or impossible. You experience the unity around you -- that which joins things together. There is a love of the sea and of whatever solves that which separates us. Mysticism, mythology, poetry, and music are natural. These are all known items to you. People who encounter you may sometimes feel deceived by your remarkable vision, which they enjoy when they are with you but find hard to maintain by themselves. They wish the world were like you say it is.

*Neptune Inc Venus*

## **Major Transits Happening Now**

Astrologers use the term "transits" to mean the positions of the major planets that are overhead (in the sky) right now and their relationship to our birth chart. Transits are very important indicators of the current situation in which we find ourselves. They can provide insight into what we are now going through. Here are the dates when the next major transits for the planets Jupiter, Saturn, Uranus, Neptune, and Pluto are exact in your chart. Some dates will have already passed and some are still to come. Remember, with these large planets transits don't just happen on the day when they are exact. They cover a wide span of days, weeks, months, and sometimes years, depending on which planet is involved.

In general, transits of Jupiter take from several days to a week or two to complete, while those of Saturn take from two weeks to a month to play themselves out. With the outer planets,

the period of activity is even longer: transits of Uranus take about two months, Neptune three or four months, and Pluto takes about a year. Uranus, Neptune, and Pluto move so slowly that the complete transit experience may take a year or two to complete itself. So be prepared to work with these situations.

## **House Activity and Emphasis**

The twelve houses of the horoscope, particularly when they are occupied by a planet, provide a clue to areas of special activity and use. Here is an analysis of house activity based on

planet emphasis:

### **First House: Appearance, Approach**

The first house has to do with how we appear or the way we come across, thus our appearance and personality. This is the essential stuff that bubbles up in us spontaneously and that is obvious to others as our trademark or activity. It is what makes us each so personally different. This house rules our personal self and everything about us that draws a reaction from our surroundings or others.

*First House*

Virgo energy is analytical and precise, always separating what is worthwhile and worth supporting from that which is outmoded and of no further use. A mental sign, where thinking and examining are in high focus. Also, a different kind of mother, here an endless caring and worrying (fussing) about just about everything. Always compassionate and responsive, Virgo energy is service-oriented above all, often thinking and caring more about what others are doing and thinking than for self.

*Virgo*

### **Second House: Possessions, Reactions**

The second house is concerned with how we respond to or field whatever impulses or unique and personal qualities we manifest via our first house. This is how we hold or "have" things (possessions, material goods, money, and the like). The second house always refers to how we secure ourselves, the kind of response we get from life and those around us.

*Second House*

Libra energy is always facilitating and responsive, assuming the appropriate reaction or response to any question or statement. What is sometimes seen as two-faced is only Libra's facility at responding to each in kind. This is certainly the social sign, par excellence. Impersonal and impartial, this sign doles out only what is demanded, never overdoing things.

*Libra*

You are very idealistic when it comes to possessions, finance, and how you choose to make your living. Your response to what life offers you is always very elevated, although not always practical. This could lead to some disappointments.

*Neptune in Second House*

### **Third House: Inquiries, Communications**

The third house is concerned with explorations, investigations, and inquiry and research of all kinds. It also rules connections, communications, wires, tubes -- anything that we can get through with our body, mind, voice, letters, what-have-you. It is here that we explore and search for the limits of our life, whatever we are working with at the moment. A very mental house, concerned with finding, furthering, peering, and all manner of questioning. Traditionally rules short journeys, siblings.

*Third House*

Scorpio is the most famous sign. Intense, passionate, and very personal, Scorpio rushes past superficialities and right to the heart of any matter. A loyal friend but a fanatic foe, this sign does well in politics and all areas where someone who dares is rewarded. Often associated with sexual energy, perhaps due to its tendency to strip away veneer, laying bare anything that is there.

*Scorpio*

### **Fourth House: Home, Family, Security**

The fourth house is where we send down roots, find our limits, and generally secure ourselves. It is the end of any searching we might have done in the third house. Here we find or end our search, settle down, and manage to get in possession of the whole situation. This is our home and the base from which we can work, feel, and experience. This is the root of our experience, the core or thick of it.

*Fourth House*

Sagittarius is nothing if not direct, candid, and to the point. Sometimes harsh, this energy always is concerned with the absolute truth of the subject at hand. Associated with philosophy, religion, and all things that last, Sagittarius energy is always welcome in politics as well as social and community endeavours, where its basic fairness and even-handedness is helpful.

*Sagittarius*

You have very simple needs regarding home and surroundings. Some might find you frugal. It may be difficult for you to send down roots, build a home-base, and feel secure. Feelings and emotions may be on the sparse side.

*Saturn in Fourth House*

### **Fifth House: Expression, Creativity**

The fifth house has to do with awareness, emotion (to move out), and expression (to press out). Here there is always a growing sense of self-confidence and even a pride of ownership, since we begin to recognize and own our experience. We know that we have had or are having an experience. All forms of expression and offspring are connected to this house -- children, animals, creative expression, and so on. A sense of direction and ownership takes hold at this point in our experience.

*Fifth House*

Aquarius, the sign of humanitarian goals and altruism. Always impartial and non-sectarian, Aquarian energy is communal (even global). The focus is on the goal, and the goal is always one that is for the many and not the few. Thus this sign is connected to far-seeing visions, world views, and group work of all kinds. This sign tends towards coolness, independence.

*Aquarius*

You are at your most expressive when urged on by a group or in an environment that you feel is supportive. You may enjoy group sports or working with children or animals. Creativity and its expression are very important in your life.

*Moon in Fifth House*

You could be successful working with creativity and self-expression through the arts and theatre, in sports, or with the ultimate self-expression, children. You may find yourself a guide and teacher to others when it comes to these matters.

*Jupiter in Fifth House*

### **Sixth House: Responsibility, Work, Health**

The sixth house has to do with salvaging and preserving what is good and healthy in our experience. Here we separate the wheat from the chaff. We begin to care for ourselves and our experience and thus health, nutrition. The idea here is that we are able to analyse our experience and have thoughts about what is pure and what is not. The sixth house is an attempt to save the heart of an experience, one that already by that attempt is beginning to pass or not cohere.

*Sixth House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

### **Seventh House: Relationships, Other People**

The seventh house is the house of partnerships, relationships, social life, and all that carries us beyond our personal self into an awareness of other people, community, and the like. This includes spiritual awakening and the discovery that we are more than just our personality. Here we begin to respond to our personal needs (and those of others) for the first time. We can see what is going on and are committed to it; thus, marriage and yoga, or union, is indicated in this house.

*Seventh House*

Pisces energy runs deep and toward the psychological -- whatever is beneath the surface. This sign is understanding, patient, and long-suffering. Pisces tend to absorb all the little barbs and digs coming from outside. They always have their mind on an inner goal, something more important. They are very forgiving and accepting -- giving of themselves for the sake of more important issues.

*Pisces*

### **Eighth House: Business Savvy, Elimination**

The eighth house, traditionally the house of death, is concerned with getting rid of excess parts of ourselves that we see we no longer need. Thus this house also covers initiation and any activities where we are transforming toward a more integral position, getting to the heart of things. The no-nonsense quality of the eighth house makes it good for business ventures since here we are stripping away the dross to reveal the truth or essence of the subject.

*Eighth House*

Aries is the sign of the pioneer and leader. It is always impulsive, concentrated, and spontaneous. Act first and think about what you have done later. Rushing in where others fear to tread, the Aries energy is attention-getting. It always provokes a response from the surroundings, from others. There is something essential and instigative that starts or causes something else to happen -- a reaction or response.

*Aries*

### **Ninth House: Religions, Philosophy, Ideas**

The ninth house covers long journeys and religion (the longest journey of all). Here is what remains of the purification that takes place in the eighth house -- the seed, or essence, of an entire cycle of experience. Religion comes from a Latin word that means to bind back, and thus refers to all things that last or endure, such as the truth. Essential ideas, philosophy, and all that is the very heart of things belong here.

*Ninth House*

Taurus manages to respond, possess, and "have" just about everything possible. This is a nurturing and fertile sign in that any seed or impulse is cradled, bringing forth growth and development. Taurus is the way we "have" things, how we possess and acquire things. There is something gentle, regular, steadfast, and determined about Taurus. Always accepting, mothering, providing a base for... a matrix or womb where growth takes place.

*Taurus*
